Business solutions

GM AI Tools HUB is an independent digital business run by Gmd Khan Niazi (Ghulam Mohiuddin Khan Niazi) in Lahore, Pakistan. Gmd Khan Niazi is a Project Manager and Sales Operations professional with more than nine years of experience across FMCG, consumer goods and consumer electronics. GM publishes free online tools, a kids learning corner, learning resources and premium Excel templates, and builds Excel dashboards, reporting packs and HR trackers for businesses.

What we build

- **Sales and distribution dashboards:** targets, run-rate, territory and product reporting.
- **KPI scorecards:** weighted scoring, ratings and rankings.
- **HR attendance and leave systems:** exceptions-only logs, leave balances, Friday and Saturday or Saturday and Sunday weekends.
- **Inventory and stock tracking:** reorder alerts and profit per product.
- **Management reporting packs:** one clean monthly summary from raw exports.
- **Excel automation and clean-up:** fewer manual steps, data checks and clear documentation.

How a project works

- **1. Brief:** a short description of what you track and what you want to see.
- **2. Quote:** a written, fixed-price quote in US dollars with scope and timeline.
- **3. Build and review:** you see progress and give feedback.
- **4. Handover:** the finished Excel file, a short guide and a walkthrough.

Where we work

Remote delivery for businesses in the Gulf region, the UK and Europe, and North America and Australia. Pakistan time is one to two hours ahead of the Gulf, and our workflow is asynchronous for distant time zones.

Our principles

Clear written scope and price before any work starts.

Your data is used only for your project and is never shared. A confidentiality agreement can be signed on request.

You receive a normal Excel file with no subscription or lock-in.

We do not promise business results. We build accurate reporting so you can decide faster.

Ready-made templates and free versions

Prefer to start small? GM sells tested Excel templates in US dollars, and offers free Lite versions with no sign-up.

- HR Attendance & Leave Tracker, Team KPI Scorecard, Sales Target & Daily Run-Rate Tracker, Inventory & Sales Tracker, Invoice Generator & Payment Tracker, Personal Budget Planner.
- Professional CV Pack and Interview Success Pack for job seekers.
- Free Lite templates: gmdkhantoolshub.github.io/free-templates/
- Shop: gmdkhantoolshub.github.io/shop/
